Accessibility review handoff · Not validated

Perceivable: Review text contrast, readable medical warnings, image alternatives and text resizing.
Operable: Review 44 px targets, keyboard order, visible focus, upload without dragging and every navigation destination.
Understandable: Review plain labels, predictable step order, errors, retry guidance and confirmation before purchase.
Robust: Implement semantic headings, accessible control names and announced status changes; test with assistive technology.

Manual prototype handoff
Home → Medicines → Medicine Details → Compare Alternatives → Prescription Upload → Cart & Checkout → Order Tracking.
Care Plan → Monthly Refill → Cart & Checkout.
Lab Tests → Booking review → Health Records.
Consult Doctor → Consultation review → Health Records.
Connect these journeys and all sidebar destinations in the Prototyping tab.

Four presentation screens: Home, Compare Alternatives, Prescription Upload & Verification, Cart & Checkout.
User testing, clinical review, keyboard/screen-reader testing, zoom/reflow testing and full WCAG validation are pending.

Selection is a request for professional confirmation

Choosing an alternative here does not approve a switch. A pharmacist or doctor will review your request before confirming whether the selected medicine can be substituted for your current prescription.

Next step

Select an alternative, then continue to request confirmation from a pharmacist or doctor.

Back to Medicine Details

Request Confirmation

Illustrative comparison data: Manufacturer B and Manufacturer C are placeholders. A pharmacist or doctor must confirm product equivalence.

Upload Prescription

Upload your prescription to verify prescription-required medicines. Follow the steps below to complete the process safely.

Upload your prescription

Choose a clear JPG, PNG or PDF file. We will review it before you can place your order.

Drag and drop your file here

Or choose a file from your device

JPG, PNG or PDF · Maximum 10 MB

Choose file

Readability guidance

- Use a clear, well-lit photo or a scanned PDF.
- Make sure the doctor name, medicine names, and dosage are easy to read.
- Avoid blurry, folded, or cropped images.
- If your file is not readable, we may ask you to upload it again.

Preview state: a prescription file has been selected and is waiting for review. Choose file replaces the selected document.

Prescription Status

Uploaded
Your file is visible and ready for review.

Under verification
Our team is reviewing your prescription.

Approved
Continue to checkout will become available after approval.

Waiting for review. Continue becomes available after approval.

Continue to checkout · Waiting

Verification usually takes a few minutes.
You can place your order once prescription verification is complete.

Need help?

If your file is not readable or you need assistance, contact Help & Support.

Contact support

Static interaction-state examples
